Forecast for Sunday 28 Nov 2021

Weather: A cold start with a widespread frost, but otherwise dry and bright through the morning. Clouding over into the afternoon with outbreaks of rain, sleet and some snow likely. Snow mostly above around 500-600m, where some small accumulations are possible. Becoming increasingly dry and clear during the evening with clear spells developing overnight and temperatures falling once again.

Chance of cloud free mountain/hill tops above 600m: 90% through the morning, falling to 30% by the late afternoon.

Visibility: Generally very good through much of the day. Falling to poor in outbreaks of sleet and snow into the afternoon, and locally very poor over the peaks at times as increasingly broken cloud lowers to around 400-600m in places during the afternoon and evening.
